Rickster's hands were cupped together as though they concealed a treasure that he was bearing as a gift. moment and in the firm grip of the real. "How can they when there are hardly any around to start with?" Juanita asked him. "We told you--if they're like that, they don't last very long." Howard Kalens simmered as he listened. Quatrey had changed her tune when the commercial lobby, whose interests she represented, panicked at the prospect of having to compete in the insane Chironian economic system. The signals coming down the line had told her that she'd better get something done about it and soon, if she wanted to see herself reinstated after the elections, which in turn meant that Kalens had better be seen to back her ease if he expected her support in his bid for the Directorship. and she laughed with strange delight. territory. She'd been journeying through a land of mirrors that initially appeared to be as baffling and as. The answer turned out to be no when two teams of physicists on opposite sides of the world--one led by a Professor Okasotaka, at the Tokyo Institute of Sciences, and the other working at Stanford under an American by the name of Schriber--developed identical theories to unify quarks and leptons and published them at the same time. It turned out that the sixteen entities and "antientities" of the ground-state generation could be explained by just two components which S themselves possessed surprisingly few innate properties: Each had a spin angular momentum of one-half unit, and one had an electrical charge of one-third while the other had none. The other. Bernard grinned. "It takes some getting used to, doesn't it?
